PROFILE

I am a passionate Computer Science Engineering student with a strong interest in animation, storytelling, character design, and game development. I strive to blend creativity with technical expertise to craft engaging and immersive user experiences. My skills span front-end and back-end development, data visualization, and multiple programming languages, allowing me to innovate with technology. With a keen eye for design and a problem-solving mindset, I am dedicated to pushing the boundaries of digital interaction.

PROJECTS

E - COMMERCE WEBSITE

WS(E-Commerce Website)
